#### Notes

- 1 Receiver will operate normally to −40 °C.
- 2 Accuracy and reliability may be subject to anomalies such as multipath, obstructions, satellite geometry, and atmospheric conditions. Always follow recommended practices.
- 3 Depends on SBAS system performance.
- 4 Bluetooth type approvals are country specific. For more information, contact your local Trimble office or representative.
- 5 Two of the supported antennas (See Antenna Options) must be connected for heading.
- 6 One of the antennas must be a GA530 for MSK Beacon signal reception.

#### Notes

- 1 Receiver will operate normally to −40 °C.
- 2 Accuracy and reliability may be subject to anomalies such as multipath, obstructions, satellite geometry, and atmospheric conditions. Always follow recommended practices.
- 3 Depends on SBAS system performance.
- 4 Bluetooth type approvals are country specific. For more information, contact your local Trimble office or representative.
- 5 Two of the supported antennas (See Antenna Options) must be connected for heading
- 6 One of the antennas must be a GA530 for MSK Beacon signal reception.
